Managing Irrigated Agriculture in Great Barrier Reef Catchments

WHEN:    Mon 9 - Wed 11 October 2017
WHERE:   Burdekin Theatre, Ayr

GUEST SPEAKERS
Water Managers, Extension Officers, Farmers & Graziers, Industry Specialists, Scientists and Government Representatives

PRESENTATIONS & DISCUSSIONS
• Innovative irrigation and cropping management practices
• Water and nitrogen use efficiency
• Water quality innovation
• Regulations

An invitation is extended to Local, State and Federal Governments, Departments and practitioners involved in managing irrigated agriculture around Australia to present at the 2017 Burdekin Water Forum. The aim of this conference is to provide an opportunity for practical demonstrations and presentations that showcase projects and initiatives that have been developed in various communities and environments to manage irrigated agriculture in Great Barrier Reef Catchments.
